Application as Junior Digital Designer / CGI Artist

Dear Sir or Madam,

Your job advert on the Internet has attracted my interest.

I would like to apply for the position of Junior Designer.

After my first degree in Multimedia Design and my second in 3D Design, I worked in a digital agency for five years. Through continuous, independent training, I worked at UNICA Corp for six years. There I also gathered experience in Marketing and Communication. I then worked for three years as Art Director alongside a team of 10 professionals at INSIDE AG, my own company.

My strengths:

- Very good knowledge of 3D rendering and composition
- Team spirit
- Critical sense of awareness for visual communication
- Up to date and trends in the world of graphic design

My mother language is Portuguese. However, I speak very good German, Spanish and fluent English.

The position in a well-known watch company is something completely new for me.

I really enjoy learning new things. I also like the luxury goods sector and enjoy helping with visual communication.

I would be pleased to receive an invitation to a personal meeting.

With kind regards,
Claudio Beck
